PROJECT EXPERIENCE

Personal Portfolio Website Project

- I have designed and developed a functioning personal website to show my technical skills, education and professional profile.
- I used HTML, CSS, and JavaScript to structure, style and develop the website.
- I applied the user-interface, as well as the web development principles to develop a functional and user-friendly website.
- I tested the website functionality to identify and fix the errors.
- I also performed debugging and troubleshooting during the development phase.
- I used GitHub for source code management and version control.

CERTIFICATE AND ADDITIONAL IT LEARNING

Full Stack Development Certificate

FNB Academy

Completed: 2025

Networking Essentials

Cisco Networking Academy

Completed: 2022

Introduction to Packet Tracer

Cisco Networking Academy

Completed: 2022

Linux unhatched

Cisco Networking Academy and NDG

Completed: 2023

LANGUAGES

- English: fluent
- IsiZulu: fluent
